Summary of Changes to APD Submission

Chevron respectfully requests the ability to change the cement details for the upcoming production cement job planned to be performed on this well. When this well was previously sundried to change the target formations, the submitted cement details did not reflect our current plan that is aligned with what other wells for these same targets are pumping.

Cicada Unit 21H

| Slurry | Type | Top | Bottom | Weight | Yield | %Excess | Sacks | Water |
|------------|---------|--------|--------|--------|-------|---------|-------|-------|
| Production | | | | | | | | |
| Lead | Class C | 8970 | 19,352 | 14.5 | 1.4 | 10 | 1868 | 6.79 |
| Tail | Class H | 19,352 | 20,352 | 15.0 | 2.16 | 10 | 117 | 9.22 |
