13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

WPX Energy Permian, LLC requests approval to replace an existing communications tower on this well location with a new tower. The new tower will only be used by WPX Energy Permian, LLC and by no other entities/companies.

The replacement tower will be a 190' high single metal pole bolted to a 24' x 24' concrete base, fenced within a 30' x 30' enclosure near the south-central area of the well location.

Upon construction and commissioning of the new tower, the existing 190' tower will be de-commissioned and removed. The old tower, electrical box, 3 existing anchors, and the 6' x 6' concrete base will be removed from their location on the northwest corner of the location and the location will be reclaimed.
