13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

BLM Bond No. NMB001079
Surety Bond No. RLB0015172GC 9/26/19
Accepted for record - NMOCD

Please see the attached plats showing one (1) N2 Facility Site being 270' x 400' (2.48 acres). A berm will surround all sides of the facility pad.

RECEIVED

Please see attached plat requesting three (3) road easements being a total of 580.03' long by 30' wide permanent ROW consisting of a 480' long by 30' wide ROW for facility access (reference B1), a 50.03' long by 30' wide ROW for frac pond access (reference E1), and a 50' long by 30' wide ROW for frac pond access (D1).

SEP 23 2019

Please see attached plat showing one (1) proposed treated water frac pond and recycling center.

DISTRICT 7 - ARTESIA O.C.D.

14. I hereby certify that the foregoing is true and correct.

Electronic Submission #479580 verified by the BLM Well Information System
For MATADOR PRODUCTION COMPANY, sent to the Carlsbad
Committed to AFMSS for processing by JUANA MEDRANO on 08/21/2019 (19JM0092SE)

Additional data for EC transaction #479580 that would not fit on the form

32. Additional remarks, continued

being 525' x 725' (8.74 acres). The treated water pit itself will be 510' x 510' toe-to-toe with a 100' x 200' recycling center within the 725' x 525' surface disturbance. The pit will be double lined with a 60 mil primary line and a 40 mil secondary line, and have a 15' berm. Matador requests a 25' temporary work space on the north, east and south sides of this footprint (also requested in sundry EC#477266). The water source will be a third party water source and will be transported through a third party buried poly line. A chain link fence will surround the produced water pit and recycling center.

Please find the attached plats showing two (2) proposed flowline corridors. These corridors total 259.42? long and 75' wide (50? permanent ROW for flowlines and gas lift line, with a 25? temporary workspace). Corridor A1/A2 (100? long by 75? wide) will consist of four (4) buried flowlines intended for the transportation of oil, gas and water from the Leatherneck Slot 1 pad to the Leatherneck N2 Facility pad. A gas lift line will also be in Corridor A1/A2. Corridor B1/B2 (159.42? long by 75? wide) will consist of four (4) buried flowlines intended for the transportation of oil, gas and water from the Leatherneck Slot 2 pad to the Leatherneck N2 Facility pad. A gas lift line will also be in Corridor B1/B2.

Please note this change also affects the following wells:
