DISTRICT-ARTESIA O.C.D.

SUNDRY NOTICES AND REPORTS ON WELLS
Do not use this form for proposals to drill or to re-enter an abandoned well. Use Form 3160-3 (APD) for such proposals.

FORM APPROVED
OMB No. 1004-0137
Expires: January 31, 2018

5. Lease Serial No.

NM 16104

6. If Indian, Allottee or Tribe Name

SUBMIT IN TRIPLICATE - Other instructions on page 2

1. Type of Well

☐ Oil Well ☐ Gas Well ☒ Other

2. Name of Operator

Endeavor Energy Resources

3a. Address 110 N. Marienfeld St. Ste 200
Midland, TX 797013b. Phone No. (include area code)
(432) 687-1575

4. Location of Well (Footage, Sec., T., R., M., or Survey Description)

UL J, Sec. 01, T25S R28E

7. If Unit of CA/Agreement, Name and/or No.

8. Well Name and No.

Seminole #3 Flowline

9. API Well No.

3001527933

10. Field and Pool or Exploratory Area
Willow Lake, Delaware Oil Pool

11. Country or Parish, State

Eddy, NM

Remediation

13. Describe Proposed or Completed Operation. Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompletable horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletable in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Utilize an excavator to excavate impacted soil from a flowline release. The floor and sidewalls of the excavated area will be advanced until laboratory analytical results indicate BTEX, TPH and chloride concentrations are below the NMOCD Closure Criteria and/or the NMOCD Reclamation Standard. Temporarily stockpile impacted soil on an adjacent well pad atop an impermeable liner pending transportation to an NMOCD-permitted disposal facility. Upon receiving laboratory analytical results from confirmation soil samples the excavated area will be backfilled with locally sourced, non-impacted, like material. Upon completion of remediation activities, a Remediation Summary and Soil Closure Request will be prepared documenting field activities and laboratory analytical results from confirmation soil samples. Please see attached .kmz map, and please review area for Arch concerns.

Notify BLM Prior to backfill (24 hrs). Restoration to include access to impact area.
