If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection. ### 32. Additional remarks, continued

A variance was granted by Long Vo on 11/8/19 for well HH SO 17 20 FED 002 4H to allow the 9-5/8" casing cement job WOC time to be the tail slurry 500 psi CS time rather than the lead slurry 500 psi CS time. We have proven on well 4H that there were no issues during the cement job (returns to surface) and no losses while drilling.
