13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

BOLD ENERGY, LP requests approval for the following changes to the approved APD: **MAY 18 2006**

1. Change well name to: **Jezebel State Com #1H**

2. Change BHL as detailed on attached C-102. Also, a new directional plan based on recent GYRO Survey is attached.

3. Change casing program to allow setting 7" casing through the curve-build section of the directional wellbore; this casing will be cemented to surface.

4. Revise completion plan to allow setting a 4½" liner with a series of open hole packers and sliding sleeves to allow frac stimulation of the Wolfcamp horizontal wellbore. BOLD has reviewed current completion technology and believes that use of this system will improve the ability to control stimulation placement, which should result in enhanced well productivity. The liner will extend from TD, estimated to be @ 8072' MD, to approximately 3825'.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOC guidelines ☒, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
