TA Status

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof.

If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Yates Petroleum Corporation respectfully requests permission to extend the Temporarily Abandon status, per phone conversation with Alexis Swoboda. We are currently evaluating the Wolfcamp interval in the Hill View AHE Federal #4 well. We will either produce this well from the Wolfcamp interval based on the results of the Hill View AHE Federal #4 or plug this well.

NOTE: Mechanical Integrity Test was conducted on 7/20/04.

APPROVED FOR 12 MONTH PERIOD
ENDING 7/20/07
