RE: **BLM Completion Package – ADD ZONES**  
**State 6-4 #1**  
**API No. 03-015-33789**  
**Section 16, T22S, R22E**  
**Eddy County, New Mexico**

Dear Sir:

Clayton Williams Energy, Inc. has re-entered and added the Rocky Arroyo; Strawn (97530) (additional perforations), the Rocky Arroyo; Canyon (84120), and the Rocky Arroyo; Wolfcamp (84200) pools to the above captioned gas well. Clayton Williams Energy, Inc. filed an application for down-hole commingle which was approved by Mr. Mark Fesmire, P.E. with the New Mexico Energy, Minerals and Natural Resources Department on July 19, 2006. A copy of the administrative order DHC-3607-A is included for your reference.

Please find enclosed the following completion data for **each zone** for your records:

NM OCD Form C-105 (6 copies)  
NM OCD Form C-104 (5 copies)  
NM OCD Form C-116 (2 copies)

Please note we have set a temporary composite plug at 8300' to seal off the Rocky Arroyo (Morrow) 94160, Rocky Arroyo Atoka, NE 97529, and the Rocky Arroyo; Strawn (perforations from 8312-8410') to test these added zones. As soon as we have sufficiently tested these zones, we plan to drill out the composite plug and hopefully be able to flow the well and run a production log to determine each zones production. Thank you for your assistance in this matter. If you have any questions or require further, please call me at (432) 688-3240.

Sincerely yours,

Betsy Luna  
Engineering Technician
