Dear Lucy Ward or to Whom it May Concern,

We have received your regulatory reports for the above noted well.
On NMOCD Form C-104 it is noted in (item 28) "Date of first Production" as 9/08/2006.
Please be aware that Southwestern Energy Production Company is in violation to NMOCD Rule 105.A.
According to this rule, all electric logs ran should have been submitted by 9/28/2006.
I cannot sign off on your C-104: (Request for Allowable and Authorization to Transport)
I'm sorry, but I cannot accept the note that you wrote:
"We are still waiting on final log will send as soon as we receive".
In addition, please resubmit an amended C-105 as it is incomplete.
I find only 1 data entry of formation tops on the back of this form.
Please submit to our office here in Artesia a copy of all logs ran by 11/03/2006, along with the amended C-105 form.

As always, please call if you have any questions regarding this matter,

Yours truly,

Bryan G. Arrant
