COMMENCE DRILLING OPNS. ☐ P AND A ☐
CASING/CEMENT JOB ☐

OTHER: **Revised pit closure-to show trench depth** ☒

OTHER: ☐

13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Highlander Environmental drilled a test water well at Reindeer Federal #1 on April 26, 2007 to a Total Depth of 80 feet.
Highlander measured the water level at 61 feet below surface on April 30, 2007.
Mike Bratcher with Artesia NMOCD requested that
COG Operating LLC follow the pit closure procedure guidelines below:

1. Remove fluids from pit.
2. A 10' deep trench pit will be constructed next to all sides of the existing reserve pit and lined with a 12 mil liner. The contents will be encapsulated in this pit and the liner will be folded over the mud and cuttings.
3. Cover liner with 20 mil liner with excess of 3' on all sides as per option IV.B.3.(b) of the Pit and Below-Grade Tank Guidelines.
4. Cover with a minimum 3' of native soil.
5. Contour pit to prevent erosion and ponding of rainwater.

Notify OCD 24 hours prior to beginning pit closure.

I hereby certify that the pit area and analysis submitted to NMOCD prior to back-filling

lete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has

D guidelines ☒, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
