13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work and approximate duration thereof. If the proposal deepens directionally or recompletes horizontally, give subsurface location and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirement, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection)

Devon Energy Production Co., LP respectfully advises the BLM that we are on the location with Grey Wolf Rig #33, but are having mechanical difficulties with said rig and not make drilling footage. Per Sundry approved 02/28/07 by Dorothy Morgan (AFM Resources), Devon was granted a 2 month extension to hold the lease. Devon set 20" conductor 02/26/07 @ 40' to hold lease. Notification to ensure lease is not lost and Devon is attempting a "best effort" to have rig drilling footage over lease expiration date.

Called Duncan Whitlock to advise of any notifications that would be necessary. Following up with written sundry notice.

14. I hereby certify that the foregoing is true and correct
