Unit K, 2050' FSL, 2000' FWL, Sec 13, T17N, R30E
Eddy County, New Mexico

Dear Mr. Inge:

We noted your May 17, 2007 inspection comments in your LOV #0212407 dated May 29, 2007 about the referenced well name and signage. Our records indicate you may want to check your data on the proper well name.

A copy of our letter dated January 27, 2005 advising NMOCD of the problem with your information is enclosed. The GJSAU #41 well was re-completed to the referenced Stevens A #8 in October 1999. This should have changed the property code from 02390 to 20145 and the well name. A copy of the 10/28/99 approved C104 signed by Mr. Tim Gum confirming this is enclosed for you easy reference. We have included a copy of the BLM approved 3160-5 dated Dec 30, 1997 to plan to do this work and the approved 3160-4 dated 10/22/1999 when the work was completed to aid in your search. It is our understanding BLM forwards an approved copy to your office when they return one to us. We can only assume the mentioned production information since 10/99 has been corrected to the proper non unit zone.

We respectfully request the necessary correction be made to your records so such an erroneous comment is not part of any future inspection report.

Yours truly

James H. Arline
Materials Coordinator
