If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Yates Petroleum Corporation respectfully request approval for off lease measurement.

The production from the Eng TX Federal #2 is measured off lease at a meter located on the Oakason NV Federal #1 660 FSL 2310 FEL Section 27-19S-24E Unit O. There is no surface commingling of production.

The off lease measurement of production is in the interest of conservation and economic feasibility, and will not result in reduced royalty or improper measurement of production.
