Ladies and Gentlemen:

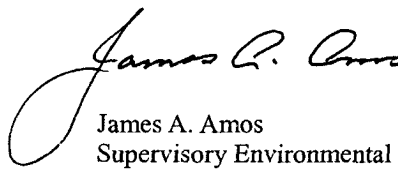

On June 20, 2007, Bureau of Land Management (BLM) completed a field examination of the abandoned North Hackberry Yates Unit well #116, located 660' FSL and 1980' FEL in Section 23, T. 19 S., R. 30 E., Eddy County, New Mexico. As of this notice all final abandonment requirements have been met except for vegetative growth (20%) established evenly across the location. The BLM will continue to monitor the surface restoration of this abandoned well site. All final abandonment requirements will have been met when the BLM is confident that the disturbed surfaces are capable of being restored to a condition similar to their original state.

✓ Please submit a Final Abandonment Notice, Form 3160-5, original and five copies. The report should state that all reclamation work has been completed, and the location is ready for a final abandonment inspection.

If there are any questions please call Jim Amos, Supervisory Environmental Protection Specialist, at (505) 234-5909. See attached Interim Reclamation Procedures for Permanently Abandoned Federal Wells.

Sincerely,

Shake your
Dawn

James A. Amos
Supervisory Environmental
Protection Specialist
