13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BEPCO, L.P. respectfully requests the approval of off-lease storage and measurement of production from the Golden Lane "17" Federal #2Y. Production this wellbore will be metered separately at the Golden "8" Battery prior to being commingled with production from the Golden "8" Federal, the Golden "B" and the Golden "D" Leases. Approval of this request for off-lease storage and measurement will allow for more efficient operations with a Consolidated Battery by reducing the number of stock tanks and water tanks. Using the existing facility will also minimize surface disturbance. Full wellstream production will be transported via flowline to a three phase heater treater where oil, water and gas will be separated at this vessel. The oil and water will be metered prior to being stored in commingled stock tanks and water tank. The gas will be metered via a separate allocation meter.

SEE ATTACHED FOR  
CONDITIONS OF APPROVAL14. I hereby certify that the foregoing is true and correct
