13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Permission from the BLM to commingle oil and gas production from leases LC-050258 (the Midnight Matador lease) and LC-055561 (the Midnight Matador "A" lease) was granted to McQuadrangle LLC, the previous operator, on May 19, 2006. Fairway Resources Operating, LLC, the current operator of the leases, requests permission to include the Midnight Matador "A" #5 in the commingling approval. Oil and gas production from both leases will be metered at the central tank battery before commingling. Fairway Resources owns all of the working interest in both leases. The attached map shows the two subject leases, the Midnight Matador central tank battery, and affected wells on the leases.
