13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

ConocoPhillips requests approval to isolate the existing perforations with a composite BP set @ +/-6400'; add perforations within the Middle Brushy Canyon of the Delaware formation, and return well to production.

The newly perforated interval will be 3720'-3734', 3736'-3900', 5875'-5881, and 6303'-6333'.

Once the new perforations have been evaluated, it is possible the current perms will be added back into the active wellbore.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
