13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Beach Exploration, Inc. requests TA status for the RLU #13

We mistakenly got this well approved through the State. Attached is a copy of the MIT pressure chart recorded 11/2/04 and signed and annotated by Gerry Guye of the OCD. State Approval attached, which expires 1/2010.

The Red Lake Unit is a mature waterflood. The flood has only had a 0.42/1 secondary to primary ratio. Most Queen floods in this area have a 1/1 secondary to primary ratio. Although Beach has not been able to determine the cause of this underperformance, future review, new technology or sale to another company capable of revitalizing this flood could potentially lead to the recovery of an additional 265 MBO. Temporarily abandoning wells in this unit rather than plugging them, will facilitate any future effort.

TA procedure/History: This well originally had 4 1/2" casing set at 2,500'. In July 1994 rods, pump and tubing were pulled from this well, a CIBP was set inside the 4 1/2" csg at 1,800' w/35' cmt on top (top perf 1,842'). On 3/15/02 a successful MIT was conducted and witnessed by Don Early with the BLM. On 11/02/04 a successful MIT test was conducted and witnessed by Gerry Guye.
