Good morning Linda,

In reference to the above noted well, I need to have you submit the following:

An amended BLM form # 3160-5. Please note the total wait on cement time (WOC).

The form I am inquiring about is dated 6/15/2007.

In scanning through the well file on our web site, I do not see the subsequent report for the intermediate string of casing that was ran to @ 4400'.

Please submit that subsequent report.

Also, I need to have you submit all electric logs along with the C-104 (Request for Allowable and Authorization to Transport).

In searching one of our data bases and the OCD's web site, I cannot find any record of this information.

Please submit this information no later than 10/22/2007 and call me if you have any questions.

Hope to see and visit w/you soon someday,

Bryan G. Arrant

District II Geologist
