13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

In addition to using a closed system, Pogo Producing Company request permission to use a ground level cutting collection area. A berm will be pushed up from the outside of the cutting storage area and lined with plastic to catch the shale cuttings. The collection area should be approximately 100' X 100'. No pit excavation is necessary. The cuttings will be hauled off at completion of the job.
