If you do not receive all the pages, please call us back as soon as possible at (575) 623-7185.

Ron,

It has been a long-tough process to get a pulling unit for this well. We have one promised for Tuesday or Wednesday (June 17th or 18th) of next week.

We have bought a new string of tubing from Double R Pipe in Lovington and a packer from Kenco Oil Tools.

We will give you a call when we have finished the work on this well.

Paul

P.S. We may have to have a swab rig to kick the well off again.
