Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection)

BP requests an extension to return this well to production by June 20, 2008.

BP has received co-owner approval to return this well to production, but we need to develop an alternate plan to produce the well. Due to delays with the power provider, BP would like to secure a generator or a gas engine for the current pumping unit or produce the well without artificial lift until electricity can be provided.

After 8-15-08 the well must be online or plans to P & A must be submitted.
