API No. 30-015-23049

Ladies and Gentlemen:

Nearburg Producing Company respectfully submits the attached Sundry Notice (Form C-103) wherein we are requesting an extension to the captioned well's TA status.

Nearburg has identified potentially productive zones in the Parino No 1 Well; however, in connection with the abrupt downturn in oil and gas prices, along with current high service company costs, Nearburg feels that it would be more economic if such completion attempt(s) were made in the future. You will note that the subject well has recently passed its mechanical integrity test, with the chart pertaining to such test attached to the Sundry.

It is Nearburg's opinion that if we are forced to plug and abandon this well, the result will be the loss of potentially recoverable oil and gas reserves.

Should you have any questions or need additional information regarding this matter, please give me a call.

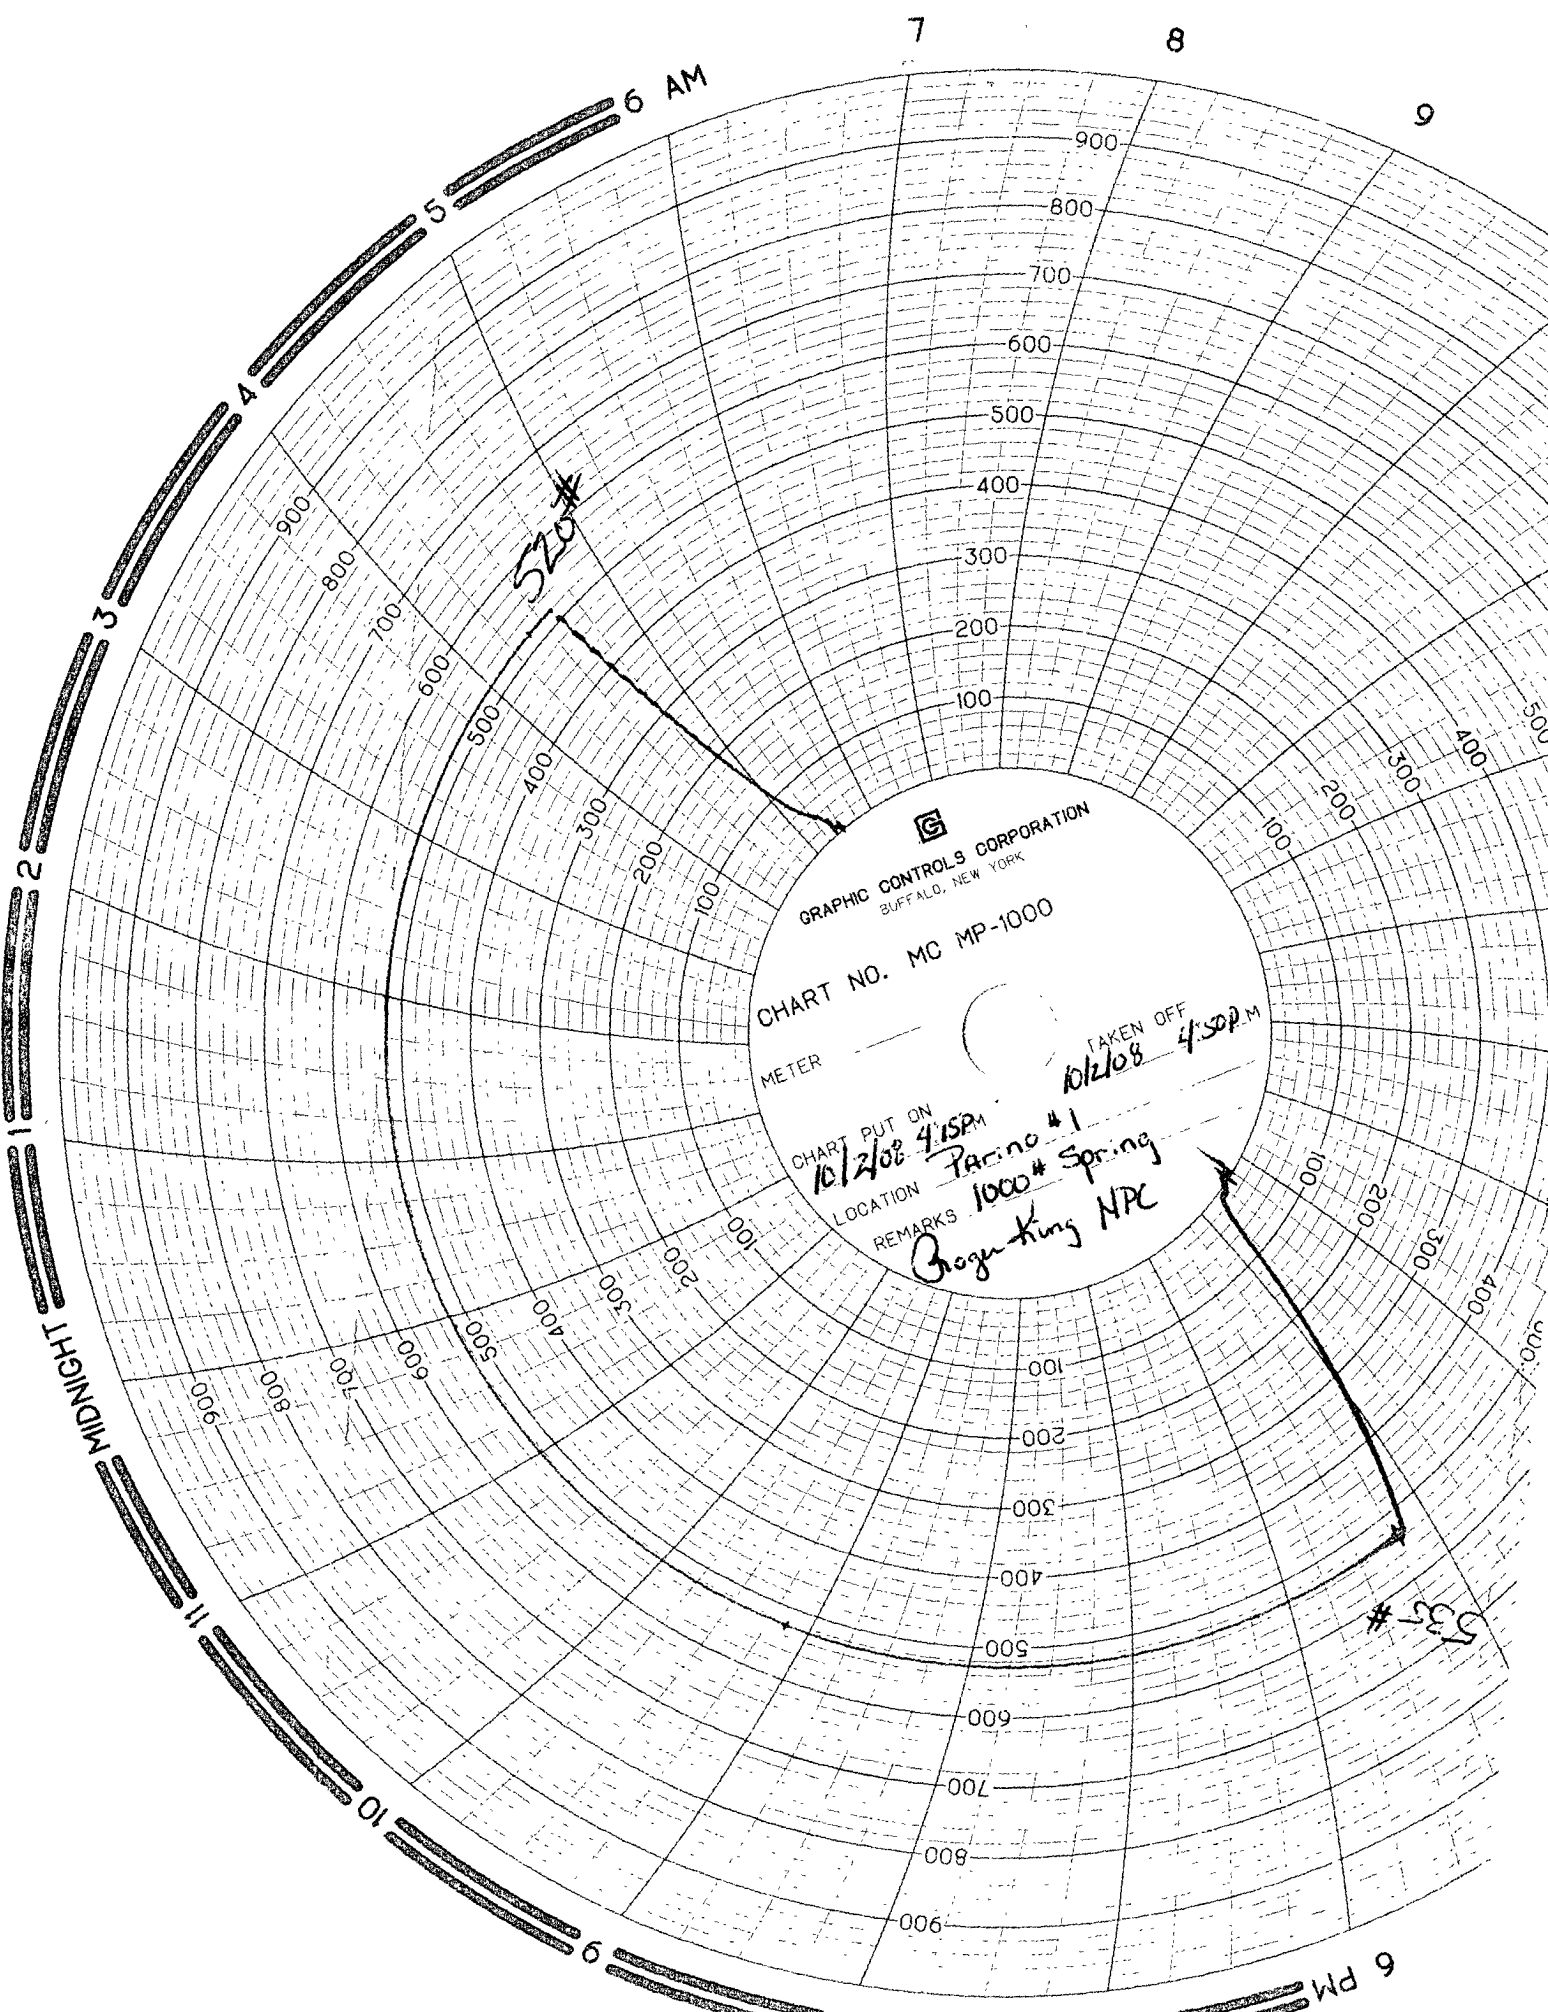

Very truly yours,

NEARBURG PRODUCING COMPANY
