13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

OXY USA WTP LP respectfully requests a 90 day Extension for a Temporarily Abandon Status Approval. This will help OXY be in compliance with the NMOCD, let them approve C-104's (Authorization to Transport) and allow OXY to start producing several wells that are currently Shut-In pending their approval.

The Intent to P&A was approved 10/25/08 and the well will be P&A'd but we are currently waiting on working interest approval to plug this well.

TD-11908' PBDT-11464' Perfs-11558-11662' CIBP-11500' ACCEPTED FOR RECORD

This well passed an casing integrity test 4/22/07.

DEC 4 - 2008

Approved Till 2/14/09 to P&A
