- 13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Due to the anticipated formation pressure to be encountered in the Delaware, Bone Spring, and Upper Wolfcamp prior to next casing point, BOPCO, L.P. requests a variance to use the Drilling Contractor owned 10M-WP BOPE System as a 5000 psi BOPE System.

Based on the pressures in the Poker Lake area, no high pressures are anticipated as we top the Wolfcamp and set 9-5/8" intermediate casing with a 9.5 ppg mud weight.

*Approved based on operator information.*
