13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

OGX Resources, LLC respectfully requests permission to install approximately 8,000' (484.84 rods) of "on lease" pipeline. The above ground 4" poly pipeline will run from the Tankless 35 Fed 1 well location and predominantly along an existing road to a DCP tie in point located in the E/2SE/4 Section 35, T22S, R31E, Eddy Co., New Mexico per the attached map as determined by the BLM.

We would also like to request permission to lay the additional portion (approximately 100' (or 6 rods)) of pipeline from the Tankless 35 Fed 2, also "on lease," at the designated time, to the soon coming pipeline for the Tankless 35 Fed 1 as approved. Per the attached map, this portion of ROW is determined by the northwesterly line from the Tankless 25 Fed 2 to the longer pipeline route.

Please find attached a copy of the aforementioned map as created by BLM.

Please note an ARCH survey has been completed for the Tankless 35 Fed 1 and a BLM field review completed per both pipelines.
