County, New Mexico, NMPM**

Dear Sirs/ Madams,

In reference to the above, the New Mexico Oil Conservation Division (NMOCD) has yet to receive the complete set of electric logs. Upon review, it has been determined that Threshold Development Company has 'run' some type of porosity log and a cement bond log.

Please refer to NMOCD Rule 1105 for further clarification on what is required to satisfy this rule.

Unless the requested material is received by office on December 22<sup>nd</sup>, 2003, Threshold Development Company is directed to shut in said well.

Respectfully yours,

Bryan G. Arrant
