NATURE OF RELEASE

Type of Release Produced Water	Volume of Release 500 bbl PW	Volume Recovered 65 B/PW
Source of Release Load Line	Date and Hour of Occurrence Unknown	Date and Hour of Discovery 10/25/2009 - AM
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Bratcher - NMOCD/Artesia	
By Whom? Mike Stubblefield - Yates Petroleum Corporation	Date and Hour 10/25/2008	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse N/A	

If a Watercourse was Impacted, Describe Fully.\*  
N/A

Describe Cause of Problem and Remedial Action Taken.\*

On 10/25/2008 a water valve was found open on a tank containing PW. A vacuum truck was called out and recovered 65 bbl. A backhoe was immediately brought to the location to excavate the saturated soil. Soil was excavated to approximately 6" below surface. Soil was disposed of at a NMOCD approved facility.

Describe Area Affected and Cleanup Action Taken.\*

An approximate area of 48' X 78'. The impacted area split into to flow paths which run south of the location along a farm road. Saturated soil from these flow paths was excavated and disposed properly. The flow paths created four pooling areas were created. Soil from the pooling areas was excavated and disposed of at an NMOCD approved facility. Crew excavated contaminated soils, soils placed on plastic and a berm was constructed along the eastern edge of the location. Vertical and horizontal delineation samples have taken and analysis ran for TPH & BTEX (Chlorides for reference). Further vertical and horizontal delineation samples were taken and analysis will be run for Chloride. **Depth to Ground Water: <100' (approx. 55', per New Mexico Office of the State Engineer); Wellhead Protection Area: No; Distance to Surface Water Body: >1000'; SITE RANKING IS 20. Based on site ground water quality and enclosed analytical results.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
