2. Sec 6-T25S-R30E
3. Sec 12-T24S-R29E
4. South of the Doc BHU St. #1 well T25S-30E

Diversified ownership. Attached notification to owners and prospective owners.

Each of these wells shall be equipped with allocation meters on gas prior to commingling for sales.

The purpose of this Surface Pool / Lease Commingle is due to capacity limitations in the LP sales meters located at the HBP3 #1 location and Sec 12-T24S-R29E. To reduce operating costs, and the environmental impact of building additional pipelines, Yates will connect the existing P/L and add (2) additional sales points.

The proposed commingling of production will not result in reduced royalty or improper measurement of production.

The proposed commingling is necessary for economic operation of the above referenced leases

We understand that the request approval will not constitute the granting of any right-of-way or construction rights not granted by the lease instrument. And, we will submit within 30 days an application for right-of-way approval to the BLM's Realty Section in your office if we have not already done so
