13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BOPCO, L. P. wishes to report the interim reclamation of the subject wellsite. The surface was reclaimed in keeping with the "Multi-Point Surface Use Plan" in the original APD for the Poker Lake Unit #240. Hauled approximately 768 yards of caliche from location and used to repair main lease road "Rawhide Rd" at Nash Draw. Reclaimed land was seeded with BLM seed #3 & #4. The site has been down-sized with the remaining wellpad designed to accomodate production operations.

Additionally, bird netting has been installed on the chemical bulk tank containment.

Site is ready for interim reclamation inspection.

14 I hereby certify that the foregoing is true and correct
