13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Rubicon Oil & Gas, LLC requests permission to utilize produced Morrow gas as a fuel for the existing compressor which is needed in order to continually produce the subject well. The gas use per day is estimated to be 12-20 mcf, as provided by the compressor operator/charts, the compressor is not utilized continuously, so this is an average figure. This well will not produce unless we utilize a compressor.

The lease use fuel will be reported on the OGOR using disposition code 20, with volumes being reported on the OGOR B. Gas to sales began November 2007 to Duke PPL sales meter, amended reports will be submitted.

14. I hereby certify that the foregoing is true and correct.

Name (Printed/Typed)

Ann E. Ritchie

Title Regulatory Agent

Signature
