Subject: SWD Application from Havenor Operating Company: Jack Tank No. 2 SWD 30-015-29602 Sec 12, T24S R31E

Hello Mr. Havenor:

Today, the OCD received a protest to this application from Marbob.

Please contact Brian Collins or other Marbob personnel: bcollins@marbob.com for questions concerning this. Let us know if you work out something with them. Conversely, let us know if your attorney sets this to hearing.

We have not reviewed the application to determine if other issues exist. If the protest is formally dropped by Marbob and if you request, we will continue to review the application.

Mr. Havenor,

OCD just received your C-108 for the Jack Tank 7 Federal Well No. 1
The API Number you show is for the Jack Tank 7 Federal Well No. 2
Which well is it?

Also need for you to send or fax me a signed Administrative Application Checklist
<http://www.emnrd.state.nm.us/OCD/documents/AdminApplicationChecklist20090826.DOC>

Thank you,

Terry G. Warnell

Dear Mr. Ezeanyim:

Marbob Energy objects to the captioned SWD application. The wellbore proposed for reentry for SWD service is located on Marbob Energy leasehold. We have staked two drill wells on this lease targeting the Delaware and Bone Spring formations and do not want a Delaware SWD situated on our leasehold. It is possible that we may want to use the captioned wellbore for development of our leasehold in the future. Please email me at bcollins@marbob.com or call me at 575-748-3303 if you have questions.

Sincerely,
Brian Collins
Marbob Energy
