Probrity Operating notified the Carlsbad BLM office at 6:40 am that we were spudding the subject well. At 10:30 am New Mexico time, Probrity Operating set and cemented 20" conductor pipe at 40'.

The small drilling rig continued to drill to below the conductor pipe and will continue drilling operations until the larger drilling rig is moved on to location to take over the deeper drilling operations. It is estimated that the larger rig will move on to location within 3 -5 days after moving off the smaller rig.

14. I hereby certify that the foregoing is true and correct.
