Latitude _____ Longitude _____

NATURE OF RELEASE

Type of Release Water/Oil	Volume of Release 115 bbls	Volume Recovered 95bbls
Source of Release Tanks	Date and Hour of Occurrence Unknown	Date and Hour of Discovery 0145 hrs 31July09
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Ron Ragland w/Forest Oil Corp	
By Whom? Roy Munoz w/Forest Oil Corp	Date and Hour 0145hrs 31July09	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse. N/A	

If a Watercourse was Impacted, Describe Fully.*

N/A

Describe Cause of Problem and Remedial Action Taken.*

Describe Area Affected and Cleanup Action Taken.*

The affected area was inside the fenced battery location. After the initial clean-up of damaged equipment and emergency action, soil samples were obtained from 5 sample points, 3 inside the battery and 2 in the pasture. Samples were analyzed and lab results indicated only one sample point had an elevated level of chlorides. A remediation work plan was devised and submitted to NMOCD for approval. The approved work plan was executed with the affected area being excavated to a depth of 3' BGS, then lined with a 20mil synthetic liner, and backfilled using clean material. All material removed was transported to a NMOCD permitted facility for disposal.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
