13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

As per the conversation this date with Roger Hall of BLM and subsequent verbal approval, ConocoPhillips Company respectfully requests the following:

We are currently rigged up on the above well with the intent to TA the well (isolating current Wolfcamp perms at 9148-9194). We would like to drill out the CIBP @ 10847, RIH with packer assembly thereby isolating the Wolfcamp perms referenced above and produce/test the Morrow perms at 10938-10982. Upon proper testing of the Morrow, a decision will be made to either squeeze Wolfcamp perms and produce the Morrow or isolate with cmt the Morrow perms and Wolfcamp perms and TA the wellbore for future uphole potential.
