13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

REFERENCE 1/21/2010 NOTICE OF WRITTEN ORDER: TO REDUCE LOCATION SIZE.

Our present plans show some additional perforation work and a sand fracture being planned for this referenced well bore to improve current production. Our original completion was a large gelled acid treatment. We will require all of the present surveyed location to accommodate the required equipment to do this work.

We respectfully request a delay in the downsizing of this location until this fracture work is completed.

A copy of the referenced "NOWO" is enclosed for your easy reference.

Extension of 90 days granted.

May need to utilize adjacent pads to work from if needed
