13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

The gas sales meter run for the AJ 11 Federal #2 is located on this wellsite because it was originally the central battery location for the lease.

There are presently ongoing operations on HEYCO operated wells near the AJ 11 Federal #1. Harvey Yates Co will be recompleting this well to an upper zone in the near future.

We would like to request that the well be placed back in "TA" status.

TA Approved For 12 Month Period  
Ending 2/18/05

14. I hereby certify that the foregoing is true and correct.
