Final Abandonment Notices shall be filed only after all requirement, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection)

Devon Energy Production Company, L. P. respectfully request to make the following changes to the original APD:

The surface casing will be set using an Ashton Oilfield Services rig. The rig plat is attached.

This rig will be used only to set the surface casing and will leave the location once the surface casing has been run and cemented. **McVay 8** will drill the remainder of the wellbore. The reasons for using the smaller rig to set surface are: rig availability and economics.

The BLM will be contacted 24 hours prior to commencing drilling operations. The surface casing will be run cemented back to surface as per the approved APD. The well will be secured with a flanged wellhead that will have a flanged cap secured on top of the wellhead. **McVay 8** will be on location to drill the remainder of the wellbore within 60 days after the Ashton rig has left the location.

Reminder: BLM to be contacted prior to all rig moves.

14. I hereby certify that the foregoing is true and correct
