Re: Twix Fee Com #1
1980' FNL & 990' FEL
Section 4, T-22S, R-27E
Eddy County, New Mexico

Dear Bryan:

In reviewing the requirement of an H₂S contingency plan on the above referenced well we have determined the following: The H₂S concentration is 25 ppm in the Delaware, therefore no potentially hazardous volume exists. We do not believe that an H₂S contingency plan is necessary.

If you have questions or need further information, please call.

Sincerely,

Melanie J. Parker
Land Department
