13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Apache Corp is requesting permission to temporarily flare produced gas from the Randy Federal lease in Eddy County, NM for 60 days while arrangements for the future disposition of this gas are being made. The current gas gatherer has notified Apache that they will shut-in the lease effective 1/1/11. Total lease production that will be flared is approximately 150 mcfpd. In the event a contract with another gatherer is secured prior to being shut-in the flaring will not be required. During operation the flare will be monitored 24 hrs/day.
