	<input type="checkbox"/> Change Plans	<input type="checkbox"/> Plug and Abandon	<input type="checkbox"/> Temporarily Abandon	
	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BTA completed surface reclamation as follows:

11/18/2010 The pit site was overlaid with clean soil from a nearby source. A seed mixture designed by the BLM was broadcast as per the BLM instructions. The seed was pressed into the soil using mechanical methods. A D-5 Caterpillar dozer was utilized to press the seed into the soil. The D-5 was run perpendicular to the slope of the topography, to keep the soil from eroding and to keep the seed in place during times of precipitation. Ms. Terry Gregston, BLM Carlsbad, was notified of project completion.
