13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompletable horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletable in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Three Rivers Operating is requesting a 6 month extension of the TA status of this well. We would like to recompletable and place this well back into production in the near future. At present Rubicon has shut down the pipeline that well production flows to. Three Rivers is currently in negotiations to acquire the Rubicon pipeline. If this is not attainable then we will lay a pipeline approx. 5 miles long to tie into an El Paso pipeline. Permits for the pipeline ROW will have to be prepared and submitted for approval. The TA status will expire 2/3/2011 and we will require more time to get all issues addressed and approved.

This Is The Last Temporary Abandonment Approval That Will Be Granted For This Well! No Extensions Will Be Approved! The Well Must Be Returned To Production, Recompleted, Or Plugged And Abandoned On Or Before AUG 03 2011!

TA APPROVED FOR 6 MONTH PERIOD
ENDING AUG 03 2011

Accepted for record
