13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Devon Energy Production Company, LP request a 45 day extension to the Sundry Notice approved 11/18/2010 granting extension to move H&P #223 Flex 3 rig onto location and begin drilling after the surface casing was set by an Ashton Oilfield Service rig. Devon plans on moving the rig onto the HB 11 Federal 8H location by no later than the week of February 21st then begin drilling.

This extension is needed due to multiple drilling issues of the well the H&P #223 Flex 3 rig is currently drilling. The well the rig is currently drilling had multiple waterflows which Devon Energy decided must be evaluated in order to responsibly complete the well.

Thank you for your understanding with this matter.
