13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

In October 2009, the Grynberg 11 Fed Com 3 was shut in because it was uneconomical to produce due to the high water cut. With the new Liberty 24 Fed Com 1 SWD well coming online in the near future, Cimarex will evaluate the economics of tying the well into the system and reactivating it.

DENIED: The last production record for this well was 10/2008. Operator needs to report production. IF well is uneconomical submit plans to recomplete or to P&A.
