Source of Release Well Head/Stuffing Box	Date and Hour of Occurrence Unknown	Date and Hour of Discovery Feb 11
Was Immediate Notice Given? <input type="checkbox"/> Yes X No <input type="checkbox"/> Not Required	If YES, To Whom? N/A	
By Whom? N/A	Date and Hour N/A	
Was a Watercourse Reached? <input type="checkbox"/> Yes X No	If YES, Volume Impacting the Watercourse. N/A	

If a Watercourse was Impacted, Describe Fully.*
N/A

Describe Cause of Problem and Remedial Action Taken.*

A release from the well head/stuffing box caused a release of fluid to leave the location and enter the pasture on the south side of the location and onto the lease road to the south/southwest of the location. The affected area is approximately 3' x 150' in each the pasture and the lease road. The affected area shows signs that remedial action had been taken, but not completed. The affected areas will be remediated and a work plan submitted to NM OCD and BLM for review and approval.

Describe Area Affected and Cleanup Action Taken.*

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
