13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

BOPCO, L. P. respectfully wishes to report upgrades to the Poker Lake Unit #213 battery.

These upgrades will be done in an effort to be proactive in the prevention of spills involving containments. Due to the high volumes of fluid that this battery sustains there is a inherently higher risk for a spill.

As part of the battery upgrades piping modifications are to be done to allow improved visibility of flowlines, making them more accessible. Dirt work will be done, removing any lingering contaminants in preparation for the impermeable containment. The tanks will also be cleaned and coated internally and externally with a modified ploymer. An impermeable containment constructed from a two-component modified polymer elastomeric lining material will be retrofitted to assure containment of any future contaminants.
