13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomple in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BOPCO, L.P. Respectfully wishes to request an extension to the BLM request to have this location reclaimed by January 1, 2011.

As previously stated on the Sundry dated 5-21-11 this site will have +/-200 frac tanks on location to store water for drilling and fracture treatments for the drilling of the PLU #308H and the PLU #293. The PLU #308 was completed 10-6-10 with completion papers being filed and accepted by the BLM 11-20-10. The PLU #293 is still in the process of being completed and filing of the completion papers. We would ask for an extension of December 1, 2011 for the reclamation of this site.

Accepted for record  
NMOCD

14. Thereby certify that the foregoing is true and correct.
