

February 7, 1964

Request was sent to Avalanche Journal for Form C-105 on L E. Ranch. Well #1, Unit J. 7-10S-29E. Request was made on form sent to us by the operator to fill out. We also noted the following:

Please note that we received 2 copies only of some of the Form C-103s. We keep one approved copy for our file and the original goes to our Santa Fe office. If you need an approved copy for your records, please send us an exact copy which will be approved and returned to you. In the future, if you will send three (3) copies of Form C-103 one will be returned to you

You will also notice certain changes in red on the copies returned to you. It is necessary that the lease name and well number remain exactly the same as shown on the C-101 (Intent to Drill) unless you wish to file a C-110 requesting a change.
