(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

In August 1980, the 6 5/8" production casing in this well collapsed from 2975 to 2981 (bottom of casing). Washover and milling operations failed to open the collapsed casing or recover approximately 450 feet of 2 3/8" tubing and rods from the open hole section below. The well has been pumping since this date from Grayburg perforations above the collapsed section.
