Re: Etz State Leases
Section 16-17-30
Grayburg Jackson
Pool

Dear Mr. Emanuel:

In reviewing our well files for the subject leases, in connection with Memo 2-65, we find some confusion as to which well belongs on which lease. If possible, please furnish this office with a plat of the wells and leases.

In connection with these same wells, in October of 1961, Harlan Production Company made an application to commingle the production from these Etz leases. As I recall, it turned out that Texas New Mexico Pipeline had an authorization to commingle from the "Proration Umpire", a predecessor of the Commission. I cannot find where we have received a copy of this authorization as I requested at that time. Please check your records and send us the information needed.

Very truly yours,

Oil Conservation Commission
